

Smarter Multi-Residential Waste Starts Here

Key Benefits for Municipalities

Our full-service programs are specifically designed for multi-residential buildings, supporting municipalities with deployment, resident engagement, and ensuring long-term program success.

Divert Food Waste from Landfill

Enhance Resident Participation

Support Climate Action Plans

Address Multi-Residential Gaps

Improve Operational Efficiency

Show Leadership in Innovation

Our Solution

The FoodCycler® is a compact, in-unit appliance that quietly and odourlessly dries and grinds food scraps, reducing their weight and volume by up to 90%. It processes all types of food waste in just 4-8 hours, with no plumbing, venting, or mess.

74% of tenants say they would definitely use a FoodCycler.

70% say sustainability is a factor when choosing where to live.

Less waste. Fewer bins.

No organics service in buildings? Cut waste by a third.

Organic service already in place? Reduce volume and lower contamination.
