

A Customized Food Waste Solution

Decentralized. Simple. Built for everyday use.

Reduce food waste at the source with a proven, cost-effective solution—no curbside bins, no sorting, no added infrastructure.

Communities and municipalities

Developers building for sustainable living

Haulers expanding their service offerings

Schools fostering waste-smart habits

How It Works

1. Customize

Tailor the program to your community's needs.

2. Distribute

Provide FoodCyclers to homes, schools, or buildings.

3. Divert

Process food waste at the source—cleanly and quietly.

4. Report

Track impact with measurable waste and emissions diversion data.

Why It Works

● Reduces food waste by up to 90%

● Minimal maintenance, no odours or pests

● Proven in 100s of communities

● Easy to use, high adoption rates

● Scalable, year-round solution

● Full planning and implementation support

“

This led to a substantial reduction in my garbage and allowed me to share a garbage bin with a few households eliminating my need for regular garbage pickup.

Mayor Pragner, District of Kent BC
